Chris – thanks for the prompt response! Appreciate your time in reviewing this writeup and adding your comments.

I am not a big fan of the pages either – but I do have the ability to quickly make updates should we need them. Just let me know if you ever see/need to add something and I'm happy to do it!

Take care,

Gina,

Amen! I am going to let you in on a little secret: I am not a big fan of our NPL pages. It's probably the inability for the RPM and CIC to readily make changes. The OSC Web pages have so much on the NPL pages, and I don't really see a good reason why NPL pages aren't allowed editing rights in a similar manner. I'm sure it's not "that simple," so that's just one person chatting (read: complaining) to another.

Anyway, I like to keep these pages up to date, so Keystone mostly is. I think I had the FYR language added to the "Announcements and Key Topics" section a few months ago, but I can't keep my facts and sites straight sometimes, so if you did that then way to go! I added only a couple of recommended changes. See attached. If you can, double-check the link to the ESD in my added comments. I think it works but it's hard to say because the Review feature in Word adds an underline to all added text and it "hides" the hyperlink underline. You'd have to accept comments and then it should show up.

Call/respond with questions. Thanks! – Chris

Subject: Keystone Site Profile Page Writeup

Hi again Chris!

One of the things our team is hoping to accomplish is to regularly update our Site Profile Pages twice a year. In some cases, there will not be updates, but we are hoping to at least review the material to make sure the pages are formatted correctly and we are providing updates where needed.

I figured I would tackle the Keystone page since we're in the FYR process. Attached please find the information that currently appears on the page. In my opinion, I think this page looks pretty good and seems to be up-to-date. However, I wanted to check in with you to see if there is new information we should provide, OR if you wanted to edit the page in any way.

Thanks in advance for taking the time to review this information. The only change I made was to provide information on the SWRAU designation in the Redevelopment section. See in red text.

Let me know if you have any questions or concerns.

Thanks!
